

The Children in EYFS have already got off to a flying start with their home learning. They have been writing, counting, cooking, investigating, reading, collaging, adding..... and much more. Our topic for the first two weeks has been all about the Gruffalo, as it is a story that the children love.

The following two weeks of term will see the children learning about space and we will hopefully be answering questions such as; How do astronauts brush their teeth in space? And how many planets are there? We will also be looking at a range of space stories.

Thank you parents for being so supportive and helping your children at home!
